In the perfectly healthy performance of these functions there is no sensation. Thousands of persons all over the land are enjoying health to-day who only a few weeks since did not know what enjoyment was, owing to the misery brought upon them by a diseased stomach and liver, and they all, with one accord, endorse and recommend the

HOLMAN LIVER AND STOMACH PAD.

It is not a panacca for all the lils of life, but is a most potent power for the relief and cure of many diseases that have baffled, and are now baffling, the best medical skill of the land. Full forty per cent. of the human family die of diseases having their origin in CONGESTION OF THE LIVER AND SPLEEN, and it is for these affections that we claim for the Holman Pad its greatest efficacy.

From this most common discuse (congestion of the liver) will arise a multitude of symptoms-such as bitter, coppery, or metalic taste in the mouth, a constant sense of weight and fullness of the right side, tenderness upon pressure over the liver, more or less headache, dizziness, a great sense of weakness of the entire body, with an indisposition to lator, drowsiness, a sallow com; lexion or jaundice, want of appetite or too great hunger, indigestion fermentation of the food, b'cated bowels, constipation or diarrhea, nervousness, with irritability of temper, despondency, gloom, or hypochondria, palpitation of the heart. No person can have this array of symptoms, or any considerable number of them, without having disease of the liver.

Had we space we might give hundreds of testimonials from highly-respectable and prominent persons in this and other countries attesting the wonderful cures effected by this treatment; but we can only give a few, and invite all in doubt to call at our office and satisfy themselves. The following are

STATEMENTS FROM WELL-KNOWN CITI-ZENS OF RICHMOND:

Mr. JOHN BLAIR, of the Mutual Assurance So ciety of Virginia, corner Tenth and Bank streets, says: My wife has used the Holman Remedies with most beneficial results. For three years she suffered with severe attacks of malarial fever. Knowing that all medicines had failed, as a last resort we decided to try the Holman Pad, and after using the Pad a few days all symptoms of fever disappeared, and for the first summer in three years she was not sick with fever.

F. W. CLARKE, 1613 Franklin street, says: I have been suffering for years with ulcerated bowels, and have been under the treatment of eminent phyrelief. Hearing of the Holman Remedies, I determy case I am satisfied they will do all that is wards another als claimed for them. In chills and fever they are unsurpassed, as I know of several cases that have been cured where all other medicines failed.

Mr. W. H. PARRISH, superintendent of the Richmond Cedar-Works, says: I have been using the Holman Liver Pad and Plasters for the last six weeks, and take great pleasure in saying that I would not take ten times the cost for the relief I have already had. During the past five years I have suffered with Dyspepsia, Headache, and Neuralgiathe headache always preceded by attacks of blindness; all of which I can truly say have been cured by the use of the Holman Remedies.

S. W. FLEISHMAN, one of our oldest citizens says: I have been suffering for several years past with a disease which buffled the skill of the most eminent physicians in this city. One pronounced it toroid liver; another said it was heart-disease. I entinued to grow worse until finally I could not take the least exercise. After using the Holman Liver Pad, Plasters, and Salt Baths about a month I ound relief far beyond any expectation, and now I can take exercise, my appetite is restored, and I attribute all the relief to the Holman Remedies. To all who suffer I would say, Give them a trial.

LOCAL MATTERS.

A FIRE ON BROAD STREET AND ITS CONSE-QUENCES. -The firemen had a lively time sure enough on Saturday. Every piece of apparatus was called out, and the men were very unjustly condemned for a mistake for which they were in no way responsible. This is the way in which it happened: About 9 o'clock chimney sparks set fire to the roof of No. 1608 Broad street, a brick building on the north side of the street, owned by Theodore Frick, and occupied by Charles A. Lonbert as a restaurant, saloon, &c. The fire was discovered by passers-by, who gave notice of the fact to the inmates. Mr. John Chesapeake and Ohio Railway Company, building, gathered a force of railroad-men and with buckets kept the fire from spreading fully fifteen or twenty minutes. Meanwhile, Policeman Jeter, discovering the fire, turned in an alarm at Station, 42, corner Broad street and Jail alley. Almost simultaneously another policeman turned in an alarm at Station 23, corner Seventeenth

and Marshall streets, and later alarms were turned in at both of these stations. The 4" of Station 42 recorded on some of the engine-house gongs, and so did the "3" of Station 23, which, of course, read 43. The up-town apparatus therefore went away out to the corner of Spring and Pine streets to see what was the matter in the neighborhood of 43. Elsewhere the situation was different. At headquarters, for instance, 31 was recorded, and away went the Chief Engineer and No. 6 Hose company to the corner of Fourteenth and Main streets. At the Church-Hill engine-house (No. 1) 53 was recorded, and that engine went to the station in Rocketts. This was a singular state of affairs indeed. Finding no fire anywhere near 31, corner Fourteenth and Main, the Chief Engineer drove rapidly to the Broad-Street engine-house to see sicians of this and other cities without obtaining what was really the matter. Discovering the fire, he drove down to the Chesapeake mined to try them. From what they accomplished and Ohio depôt, and immediately afterorm was turned in a

tion 23, corner of Seventeenth and Marshall streets, and the other fire-alarm stations baving recorded their numbers the lastnamed box was clearly recorded, and Steam fire-engine company No. 2, from Main street near Twentieth, came upon the ground in three or four minutes, a powerful plug-stream from the depôt-plug was at once put upon the fire, and in ten minutes it was all out. Loss, \$250. Now, see the result of the confusion in the alarms: Steamer No. 1 went to Rocketts; Steamer companies Nos. 3, 4, and 5, and the Hookand-Ladder Truck company No. 1 went to the corner of Spring and Pine streets; Hose company No. 6 went to the corner of Fourteenth and Main streets, and subsequently

case of such an accident the firemen of course are in no way censurable. To give an alarm is a very simple matter. Open the box and listen for a few seconds to ascertain whether an alarm has been turned in at an adjacent station. If the tiny little gong which is inside of every box does not strike, put your finger on the brass hook and pull it down to the end of the slot, and then let the hook go. Don't attempt to pull it up and down two or three times: do so but once: that's all. The city fire-alarm boxes are always in order. They are watched day and night. It is not the fault of a box if it fails to record when another box has

been used at the same moment. It is said that there will be a thorough in vestigation into the causes of the delay of the fire apparatus in reaching the fire on Saturday.

YOUNG MEN'S CHRISTIAN ASSOCIATION MEETINGS AT DR. PRESTON'S CHURCH .-To-day begins the seventh week of these remarkable meetings, which have so stirred the whole city. At a conference of ministers and others interested it was decided to continue them another week, and to hold them this week again at the First Presbyte-

The meeting Saturday evening at the First Baptist church was conducted by Rev. Dr. Henry McDonaid, who made a tender, touching, and very effective address. Appropriate remarks were also made by Rev. Dr. Read and Colonel W. P. Munford. Dr. Sledd, Rev. W. C. Schaeffer, and Dr. Hatcher led in prayer for the special objects pre-

sented. Rev. Dr. Hoge will conduct the meeting this evening from 5 to 6 o'clock. The eastern gallery of the church will be reserved for gentlemen.

MEETINGS AT SEVENTH-STREET CHRISTIAN CHURCH.—The meetings held nightly during the past week at the Seventh-Street Christian church have been very interesting and well attended. Six persons were baptized during the week. The meetings will continue during this week.

THE FIRE ASSOCIATION OF PHILADELPHIA publishes in our columns this morning the annual statement required by law to be made to the Auditor of Public Accounts of Virginia. This company began the business of fire insurance in 1820, upon a basis somewhat similar to our old Richmond Fire Association, and from the beginning was as popular and prosperous as its namesuke of this city. After the volunteer fire department of Philadelphia was abolished, in 1871, the Association became a joint-stock company, with a capital of \$500,000, and is one of the most powerful and successful fire-insurance

The New Kent Murder. TWO OF THE NEGROES CONVICTED AND SEN-

TENCED TO BE HUNG. We have already given a full account of the shocking murder of Mr. John C. Lacy, of New Kent county, by four negroes, on the night of the 17th January. The first of the negroes, Julius Christian, was tried on Tuesday, and late in the evening found guilty of murder in the first degree and sentenced to be hung on the 25th March. The jury was sent out between 4 and 5 o'clock, and were away from the courtroom about ten minutes only.

The next one of the murderers arraigned was Patrick Smith, which was done on Friday evening. The trial was not con-cluded until Saturday, when the accused was found guilty and sentenced to be bung on the 25th March by Judge Isaac H. Chris-

MISS COCKE'S PIANO RECITAL. - The large audience which attended the piano recital at Woodhouse & Parham's on Saturday must have been a flattering testimonial to Miss Cocke, not only on account of its numbers, but from the intelligence of which it was composed.

The following is the programme, which was throughout gracefully performed by Miss Cocke : Waltz, Liszt; Gavotte, Glück; Souvenir de Marie, "Ce qu'on pense en al-lant chez elle," Z. C.; Imprompiu, Zur Guitarre, Hiller; Marche a la Turque, Ruines d'Athens, Beethoven; Fifth Nocturne, Field; Dancing Leaves, Mattei; Wild Rider, Opus 68, No. 8, Schumann; a really pure article of whiskey. All we ask is a Scherzo, Opus 31, Chopin; Menuett, Boc- fair trial, and we are satisfied it will compare facherini; Allegro from Sonata, Opus 53, Beethoven; Fantasia on Scotch airs, Sivrai.

THE PATHFINDERS .- This company commences an engagement of three nights at the Theatre this evening, opening with · Scraps." This entertainment introduces America's mimics, Charles S. Rogers and Mattie Vickers, and Miss Marie Jasper, Miss Eugenia Laville, the Jaspers (Milton, Newton, Thomas, and Clinton), and a full company. The performance, it is said, is full of fun and calculated to please. The company concluded a very successful twoweek's engagement in Philadelphia Satur-

A HANDSOME PAIR OF HORSES .- The Fire Department has been very much in need of horses, but on Saturday the committee succeeded in buying one of the handsomest pairs of dark iron-grays, five years old, that the city has ever owned. They were brought from the county of Pulaski, and weigh 1,282 and 1,262 pounds respectively. They were be had at examined by a number of judges of horsevs. Hoffman, Lee & Co. Argued by E. Spring Hill.—One of the most beautiful and highest points in the vicinity of Macchester is Spring Hill. It was once the property of a Mr. Clarke, a relative of our party of Mayor who was a hundred sion that stood for many years afterwards upon the brow of the hill overlooking the river, and in its day was considered one of the handsomest residences in this State. It was consumed by fire about ten years ago, to have any effect upon the outer side.
